THIS WEEK'S PICK

Ceramics & Space

The main Autumn season exhibition at the Design Museum celebrates Finnish ceramic art. The exhibition, organized by The Finnish Association of Designers Ornamo in cooperation with the Design Museum and the Association of Finnish Sculptors, presents contemporary Finnish ceramics and the present state of ceramic art in Finland.

Many of the 66 works selected by the jury address the history of ceramics and its forms of representation at the present time. Ceramics are an important material of contemporary art with time-honoured traditions. The exhibition will give viewers a look at the opportunities of different ways of working with ceramics. The various sculpting techniques stand out from the selection of works: ceramics can be hand-built, cast, broken, illustrated, constructed and combined with other media.
