Chaos & Beauty

Kunsthalle's first exhibition of the year 2015 opens on Saturday 24 January. *Chaos & Beauty*, a joint exhibition by Helena Hietanen and Jaakko Niemelä, will bring a show of light and shadow to Kunsthalle and extend even to the outside of the building.

The common theme in Hietanen's and Niemelä's art is light. The artist couple work together, separately and in parallel. *Chaos & Beauty* represents a condensation of their life during the last 18 years – Niemelä and Hietanen have never needed to search far for ideas for their work. Both landmark works and audience favourites from the careers of the both artists are on display in the exhibition. There will also be a new installation in the sculpture gallery. On Sunday 25 January, the artist duo will be presenting their exhibition.
